A Word of History

THE CITY of Fort Wayne stands on historic ground. For untold ages the site was the great central seat of trade and assembly for powerful tribes of Red Men who contended for the possession of the lands at the confluence of the St. Mary's and St. Joseph rivers. Here stood the famous Miami village of Ke-ki-long-a.

Then, in the seventeenth century, came the French, who found the village to mark the central spot on the great water route for future fur trade between the Great Lakes and the Mississippi. It was a prize worthy of any patriotic sacrifice—a key to the possession of the west. Here, on the St. Mary's, they erected a fort, probably in 1636, to dispute the claims of the British who shortly afterward penetrated to the west and declared their title to the Maumee and Wabash valleys.

Finally, in 1760, the invading British wrested the stronghold from the French, only, in turn, to be overthrown by the treacherous, murderous savages who defied all intrusion of the whites.

Then followed the series of disastrous engagements between the Indians under Little Turtle and other celebrated chiefs and the United States, first marked by the unfortunate enterprise of LaBalme and the defeat of the armies of General Harmar and General St. Clair, followed by the glorious victory of General Anthony Wayne at Fallen Timbers. The conquering American leader erected the first stockaded fort on the site of Fort Wayne in 1792.

Again, in 1812, the fort in the wilderness was under hot siege by the Indians for two weeks, and would have fallen into the hands of the savages but for the timely arrival of the army of General William Henry Harrison.

The return of peace in 1813 marked the beginning of the little settlement which has blossomed into the modern progressive city.
